

Your energy bill

Message Center

This bill reflects changes in the Supply and Delivery portions of your bill effective September 1, 2020. The change in the Supply portion of your bill is the result of an increase in transmission charges if you receive PSE&G's Basic Generation Service (BGS). PSE&G's BGS is provided to customers who do not have a Third Party Supplier. The change in the Delivery portion of your bill is the result of a new subcomponent added to the Green Programs Recovery Charge related to the Transitional Renewable Energy Certificate Program. As a result of these changes, a typical residential customer who receives electric supply from PSE&G and uses 6,920 kilowatt-hours per year will see a monthly increase of \$0.38 or 0.29%. Tariff information may also be found by visiting pseg.com.
